FAQS

Our Vehicles:

These are the smoothest off road vehicles in the business. An H-1 Hummer is also the most expensive off road vehicle money can buy. Our vehicles can go where no other vehicle can go and do so with lots of extra space – no more banging knees up against other people in a vehicle not meant for large cargo loads.

Comfort

Our vehicles feature stadium seating that face forward.

We run our vehicles with no tops most of the year, but we can add one should the sun become a factor in the summer months.

Our Drivers:

We believe the most essential part of our business is our guides who not only make the tour but provide an essential element of safety in the most rigorous off road conditions. Guides are experts in the knowledge of the desert, it geology, botany and Indian lore. They are both entertaining and educational not to mention expert off road drivers. We are the only local off road company that requires drivers to possess a commercial drivers licenses.
